ANTI-SLIP PALLET PAPER

ANTI-SLIP PALLET PAPER

We produce Anti-Slip Pallet Paper for industrial factories' logistic departments.

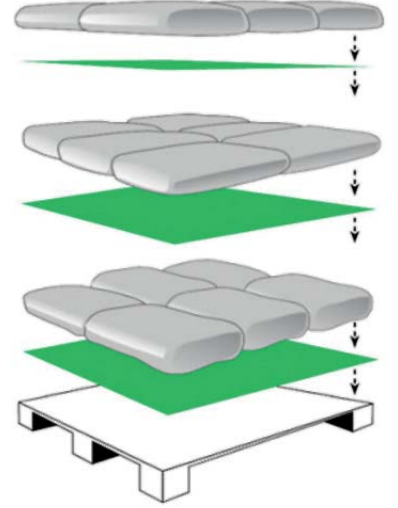

Anti-Slip Pallet Papers are produced in different sizes and different grammatures according to our customers requests.

Anti-Slip Pallet Paper effects to increase stability and safety of pallets by reducing or eliminating movement of damaged goods during shipment. These have been achieved by coating both sides of the paper.

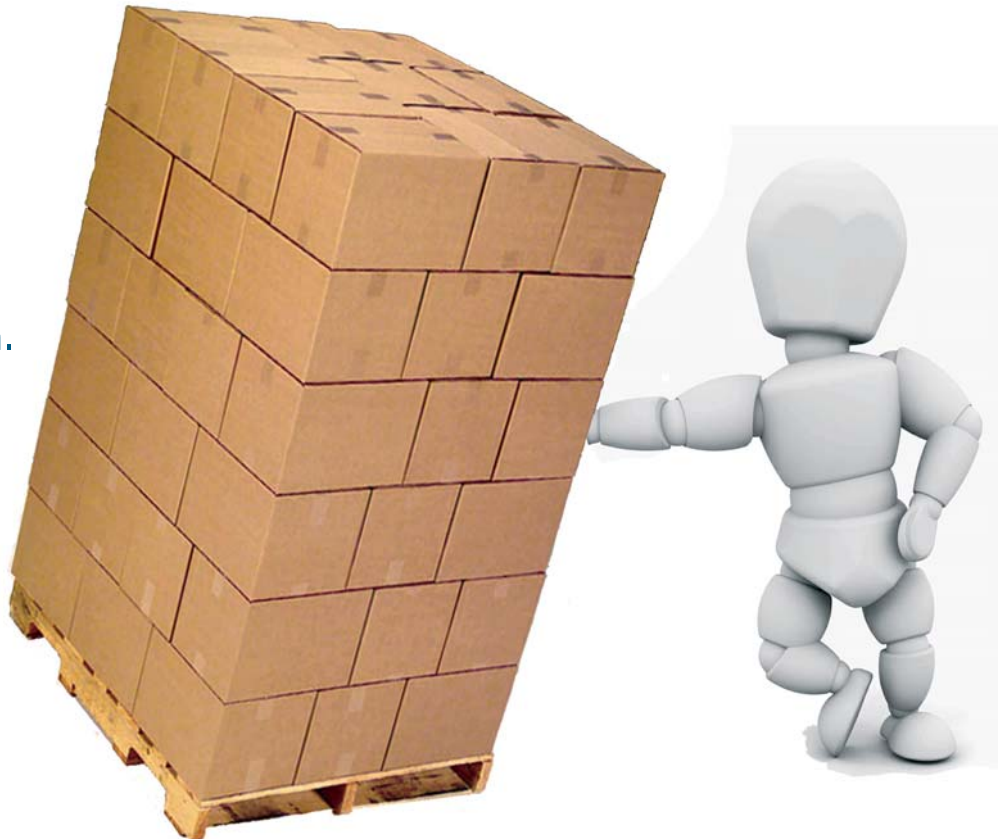

Anti-Slip Pallet Paper is inserted between each row of stacked packaged products.

The main benefits are:

- Reduce costs related to damaged goods,
- Reduce work place accidents,
- Reduces the need for plastic stretch wrapping, strapping of palletized items (i.e. stretch wrap up to 70% less),
- Recyclable
- Reusable.

- Min. 60 - Max. 125 gr. grey cartoon paper.
- Any size of production.
- Non-skid effect at 40°.
